Caledonian Society for Endocrinology and Diabetes – Annual General Meeting 2015

27th November 2015

Finances

The 2015 meeting was financed by equal contributions from Novo Nordisk, BI/Lilly, MSD and Sanofi. The CSED account remains in positive balance (approximately £8000).

Most standing orders for membership fees are paid in to the old bank account which will be closed later this year. Members will be asked to update their payment details.

Next annual meeting

The next meeting is likely to be held on the 25th/26th November at Crieff Hydro, as Dunkeld Hilton is fully booked on those particular dates.

Committee membership

CalSoc has historically had a committee member from a District General Hospital in addition to representatives from the 4 university centres. One notification of interest has been received to date. If no further notifications of interest are received by 18th December 2015, they will join the committee. If further interest is expressed, selection would occur by a vote of the full membership.

CalSoc network

A further meeting will be scheduled for early 2016 to take forward ideas discussed at the 2015 annual meeting.

Dr Fraser Gibb
Secretary-Treasurer
Caledonian Society for Endocrinology & Diabetes
