YDF Caledonia

**Joint meeting of the Caledonian Endocrine Society and
Young Diabetologists' Forum Scotland
Hilton Dunkeld, 19-20 January**

Dear Colleague,

It's our great pleasure to invite you to the third edition of YDF Scotland and for the first time, held jointly with the Caledonian Endocrine Society, making this the 'not-to-be-missed' training event in diabetes and endocrinology in Scotland.

As the NHS evolves in the four nations in often divergent directions, it is pertinent to fine-tune our clinical and soft-skills training to suit the needs of the local healthcare ecosystem. YDF Scotland and Caledonian Endocrine Society meetings are designed to do precisely this and we are grateful to senior consultants and academics who give up their precious time to support our activities.

The YDF is run entirely by trainee diabetologists under the auspices of Diabetes UK, running cost-free training courses to promote excellence in diabetes care. Towards this end, we have raised well over a million pounds in the last few years. We are grateful to Eli Lilly and Co and Boehringer-Ingelheim for their unrestricted support for this event.

Please do send your suggestions and comments though youngdiabetologists.org – our web portal set to cross the 5 million hits milestone later this year.

We look forward to hosting you at Hilton Dunkeld, which as you no doubt will agree is a fabulous location for this meeting.

Thanking you,

Hermione Price
Chair
YDF

Katherine Hughes
Jt. Secretary
Cal. Endo Soc

Jyothis George
Jt. Secretary , Cal Soc
Chair-elect, YDF

Programme: Thursday 19th January 2012
